

Ryan Rendeiro

The screenshot displays a Windows 10 desktop environment. At the top, a Command Prompt window is open, showing the following text:

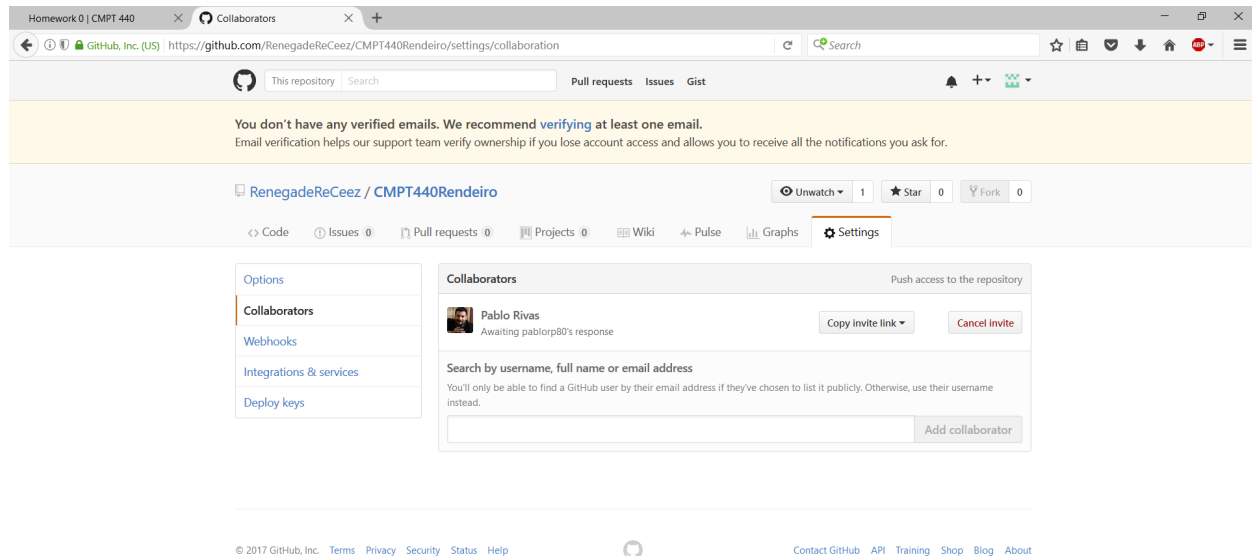

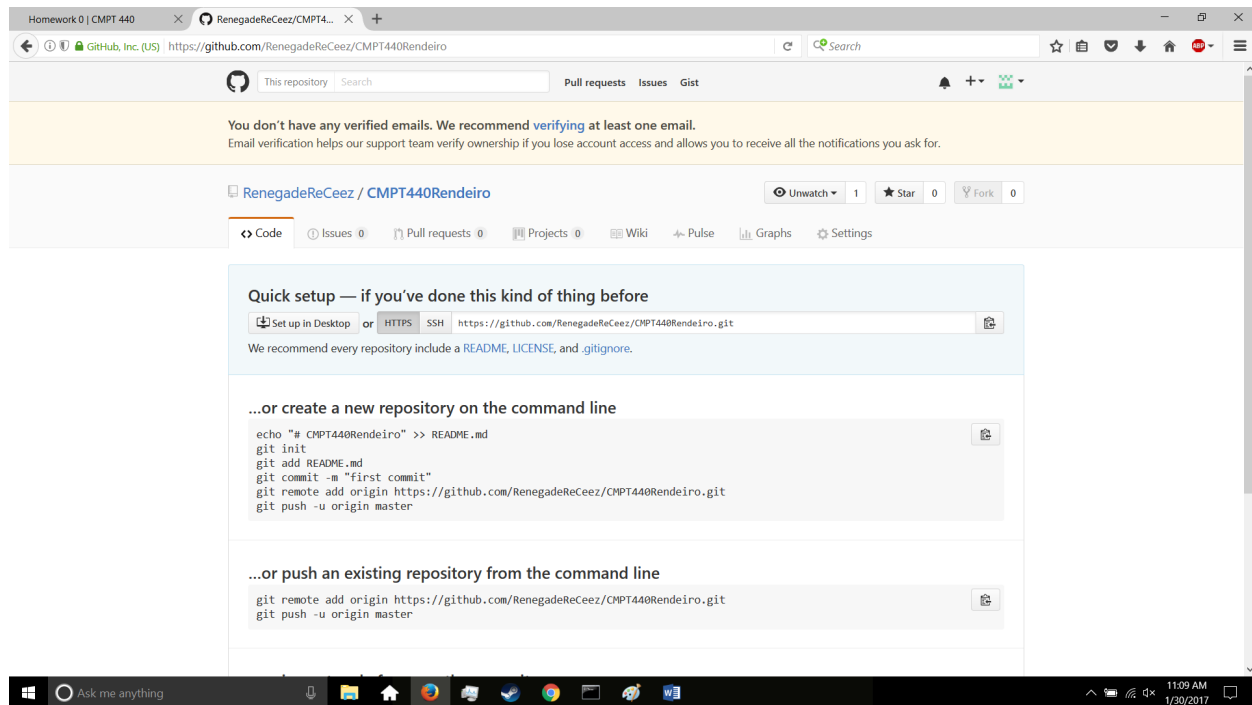

```
Microsoft Windows [version 10.0.14393]
(c) 2016 Microsoft Corporation. All rights reserved.

C:\Users\Ryan>java -version
java version "1.8.0_121"
Java(TM) SE Runtime Environment (build 1.8.0_121-b13)
Java HotSpot(TM) 64-bit Server VM (build 25.121-b13, mixed mode)

C:\Users\Ryan>javac -version
javac 1.8.0_121

C:\Users\Ryan>
```

Below the Command Prompt, a web browser window is open to the GitHub profile page for 'RenegadeReCeez'. The browser's address bar shows the URL 'https://github.com/RenegadeReCeez?tab=repositories'. The GitHub page includes a navigation bar with 'Pull requests', 'Issues', and 'Gist' links. A yellow banner at the top of the profile page states: 'You don't have any verified emails. We recommend verifying at least one email. Email verification helps our support team verify ownership if you lose account access and allows you to receive all the notifications you ask for.' The profile section shows a green and white checkered avatar, the username 'RenegadeReCeez', and an 'Add a bio' button. Below the profile, there are three repository cards: 'DBMS-Lab-1' (the first lab, PLpgSQL, updated on May 3, 2016), 'TextAdventureGame' (text adventure game, JavaScript, updated on Dec 19, 2014), and 'TextAdventure-Base' (Forked from Tientuine/TextAdventure-Base, updated on May 3, 2016). The Windows taskbar at the bottom shows the 'Ask me anything' search bar and several application icons. The system tray on the right indicates the time as 10:17 AM on 1/30/2017.
